

CARBON REDUCTION PLAN

2026

Commitment to achieving Net Zero

Tide Construction Limited is committed to achieving Net Zero emissions by 2050

CARBON MANAGEMENT STATEMENT 2026

Our company ethos is to drive the modernization and decarbonization of construction and real estate

Our carbon footprint in the baseline year of 2023 covers our Scope 1 and 2 GHG emissions, emitted through the use of mobile, stationary or otherwise owned sources of fossil fuel, as well as procured electricity through the national grid

We are committed to measuring our Scope 3 GHG emissions and have made significant progress in quantifying the embodied carbon associated with the projects that we deliver. Other upstream and downstream emissions are being quantified in order to inform our Carbon Management Plan

Our disclosure is formulated using the Greenhouse Gas Protocol Corporate Accounting and Reporting Standard; the global standard for companies and organisations to measure and manage their GHG emissions

We are committed to reach net-zero greenhouse gas emissions in our own operations by 2050
